

Les églises et les chauves-souris

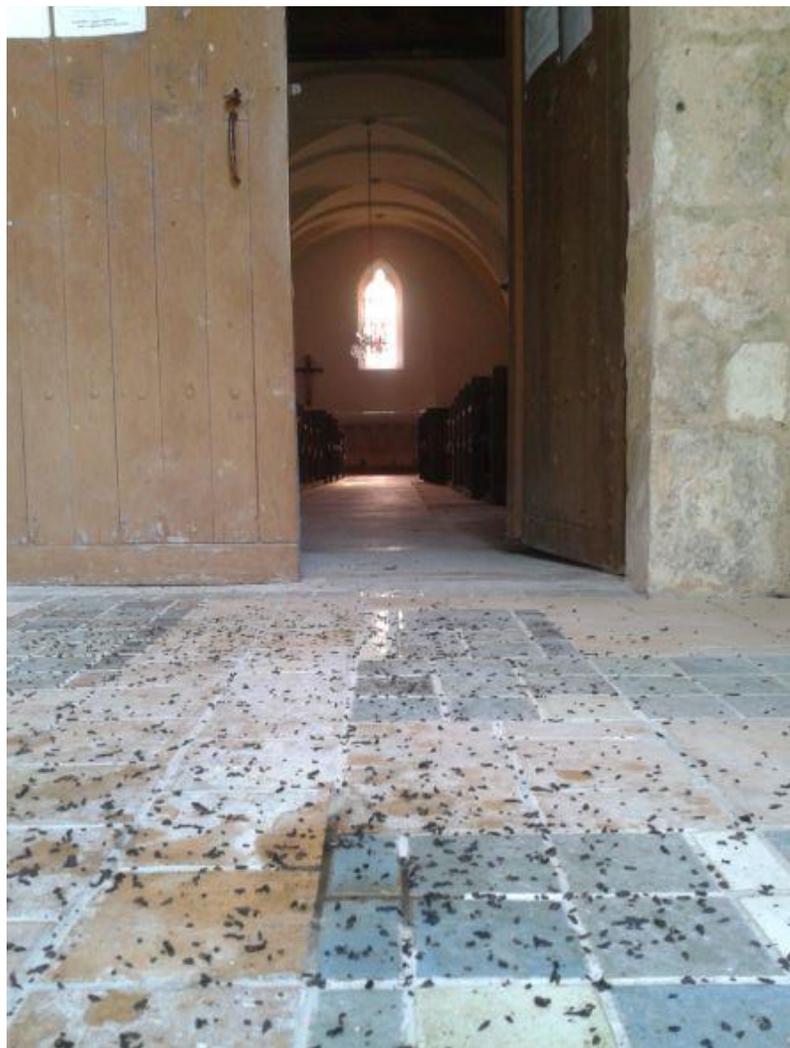

Pipistrelles,
Oreillards,
Rhinolophes,
Sérotines....

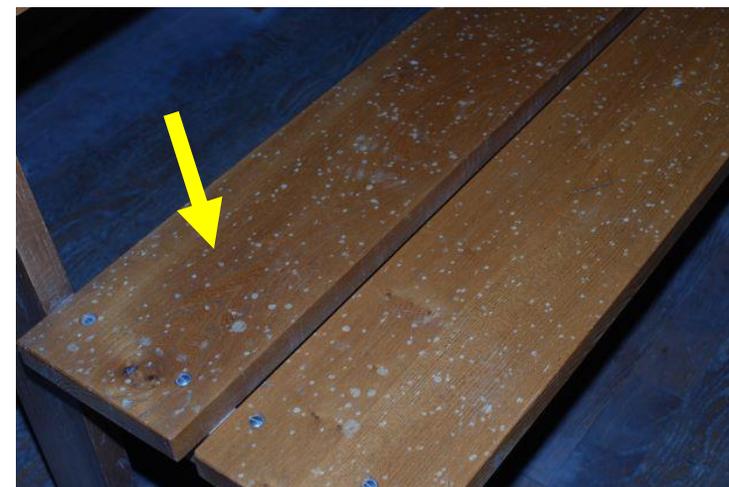

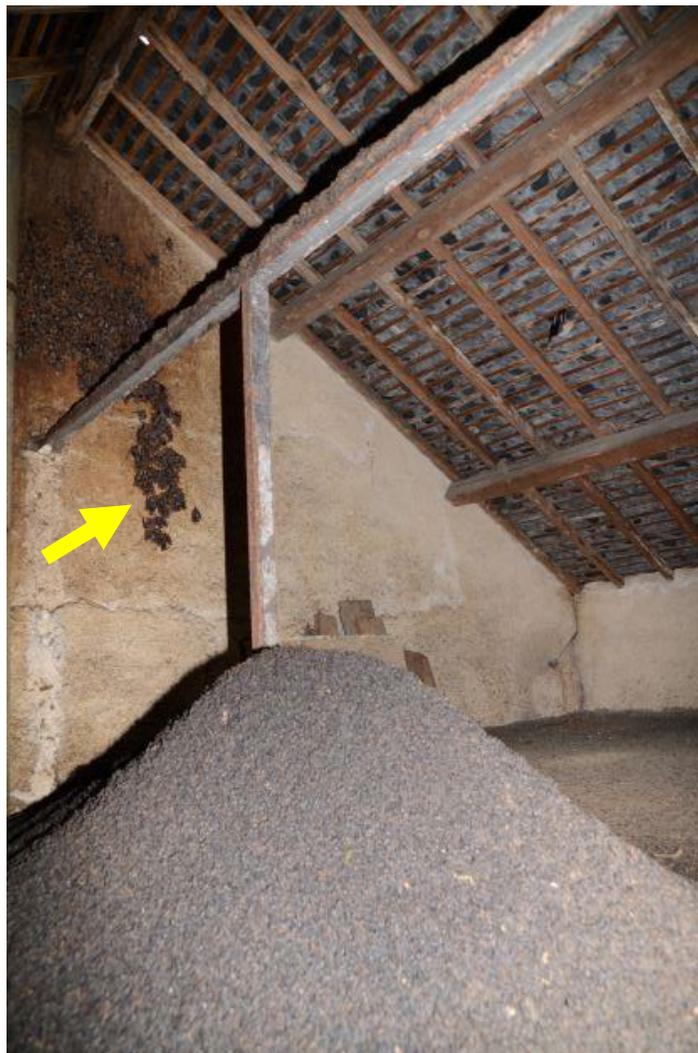

Où chercher?

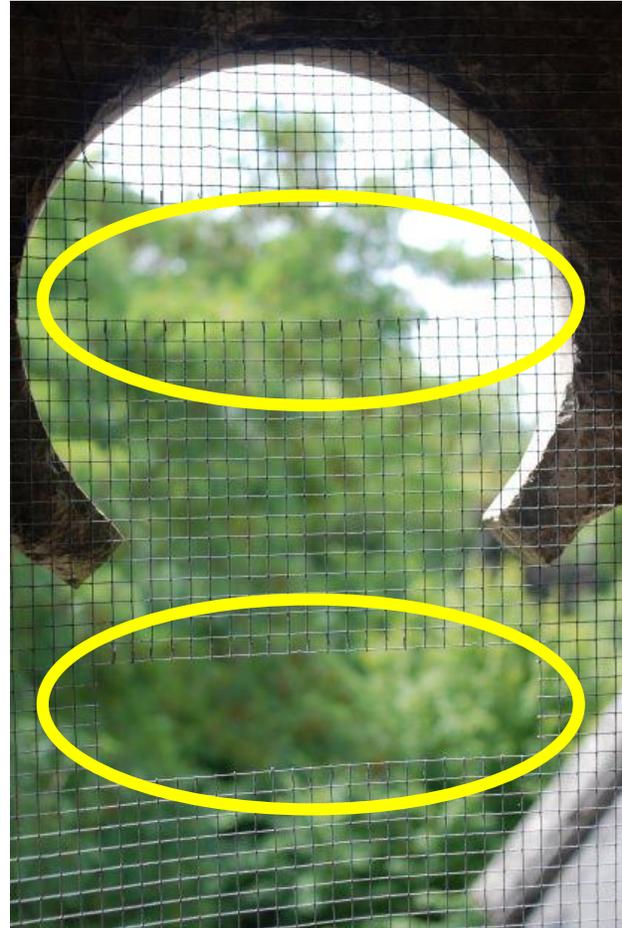

Indices de présence

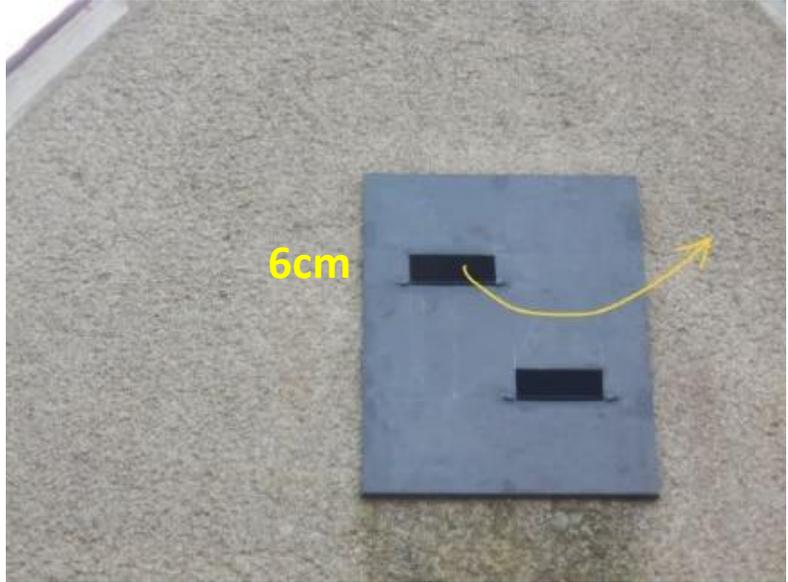

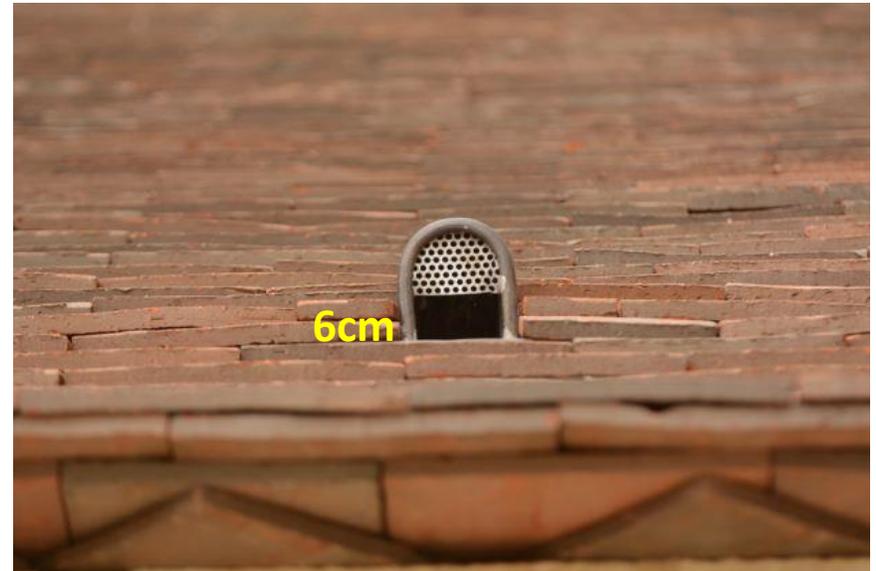

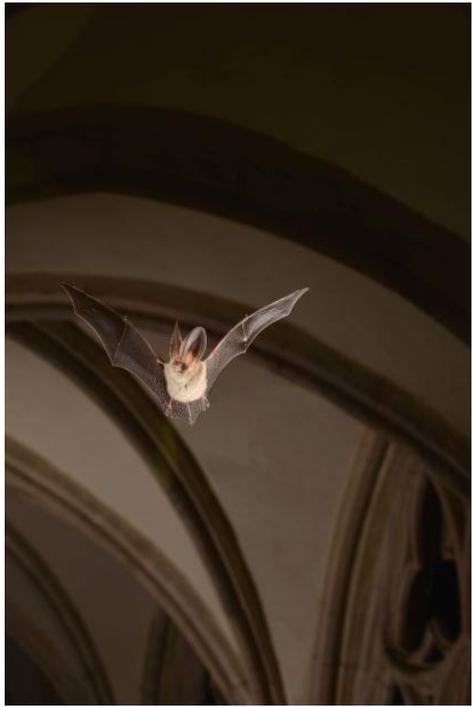

L'engrillagement

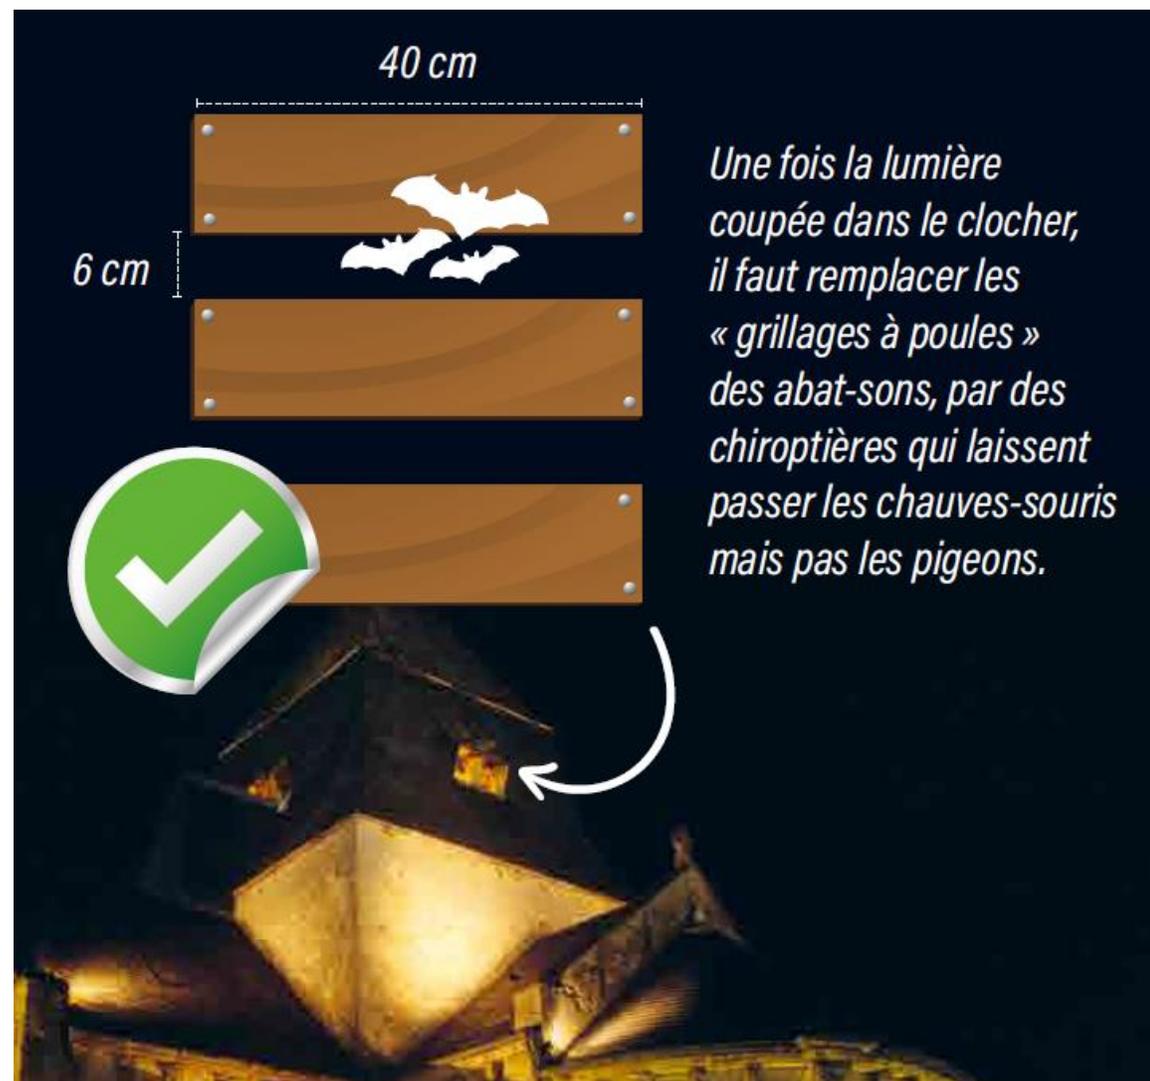

Réouvrir les combles et le clocher

limiter les éclairages

L'éclairage nocturne de cette chapelle a entraîné le départ d'une colonie de 40 Sérotines communes. Une fois la lampe enlevée, les chauves-souris sont rapidement revenues.

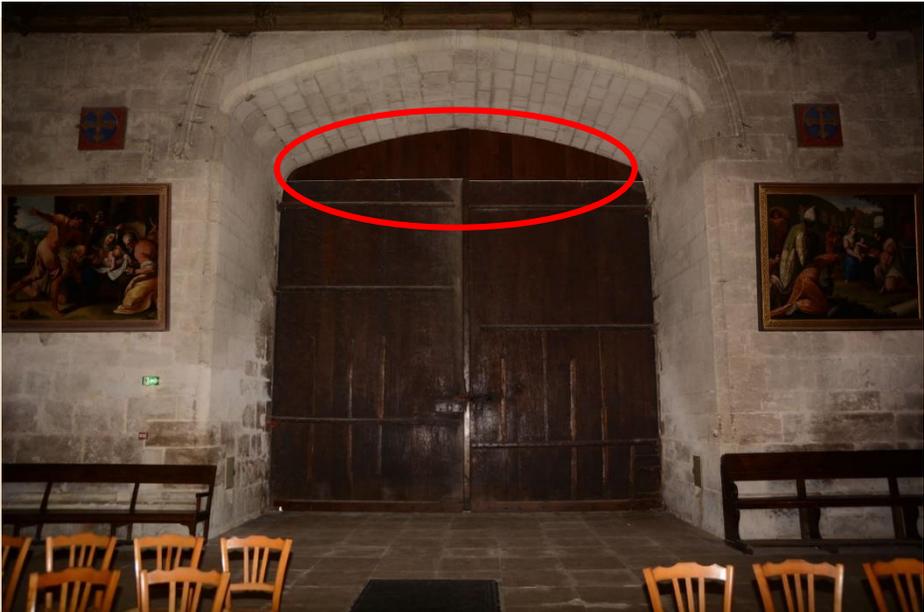

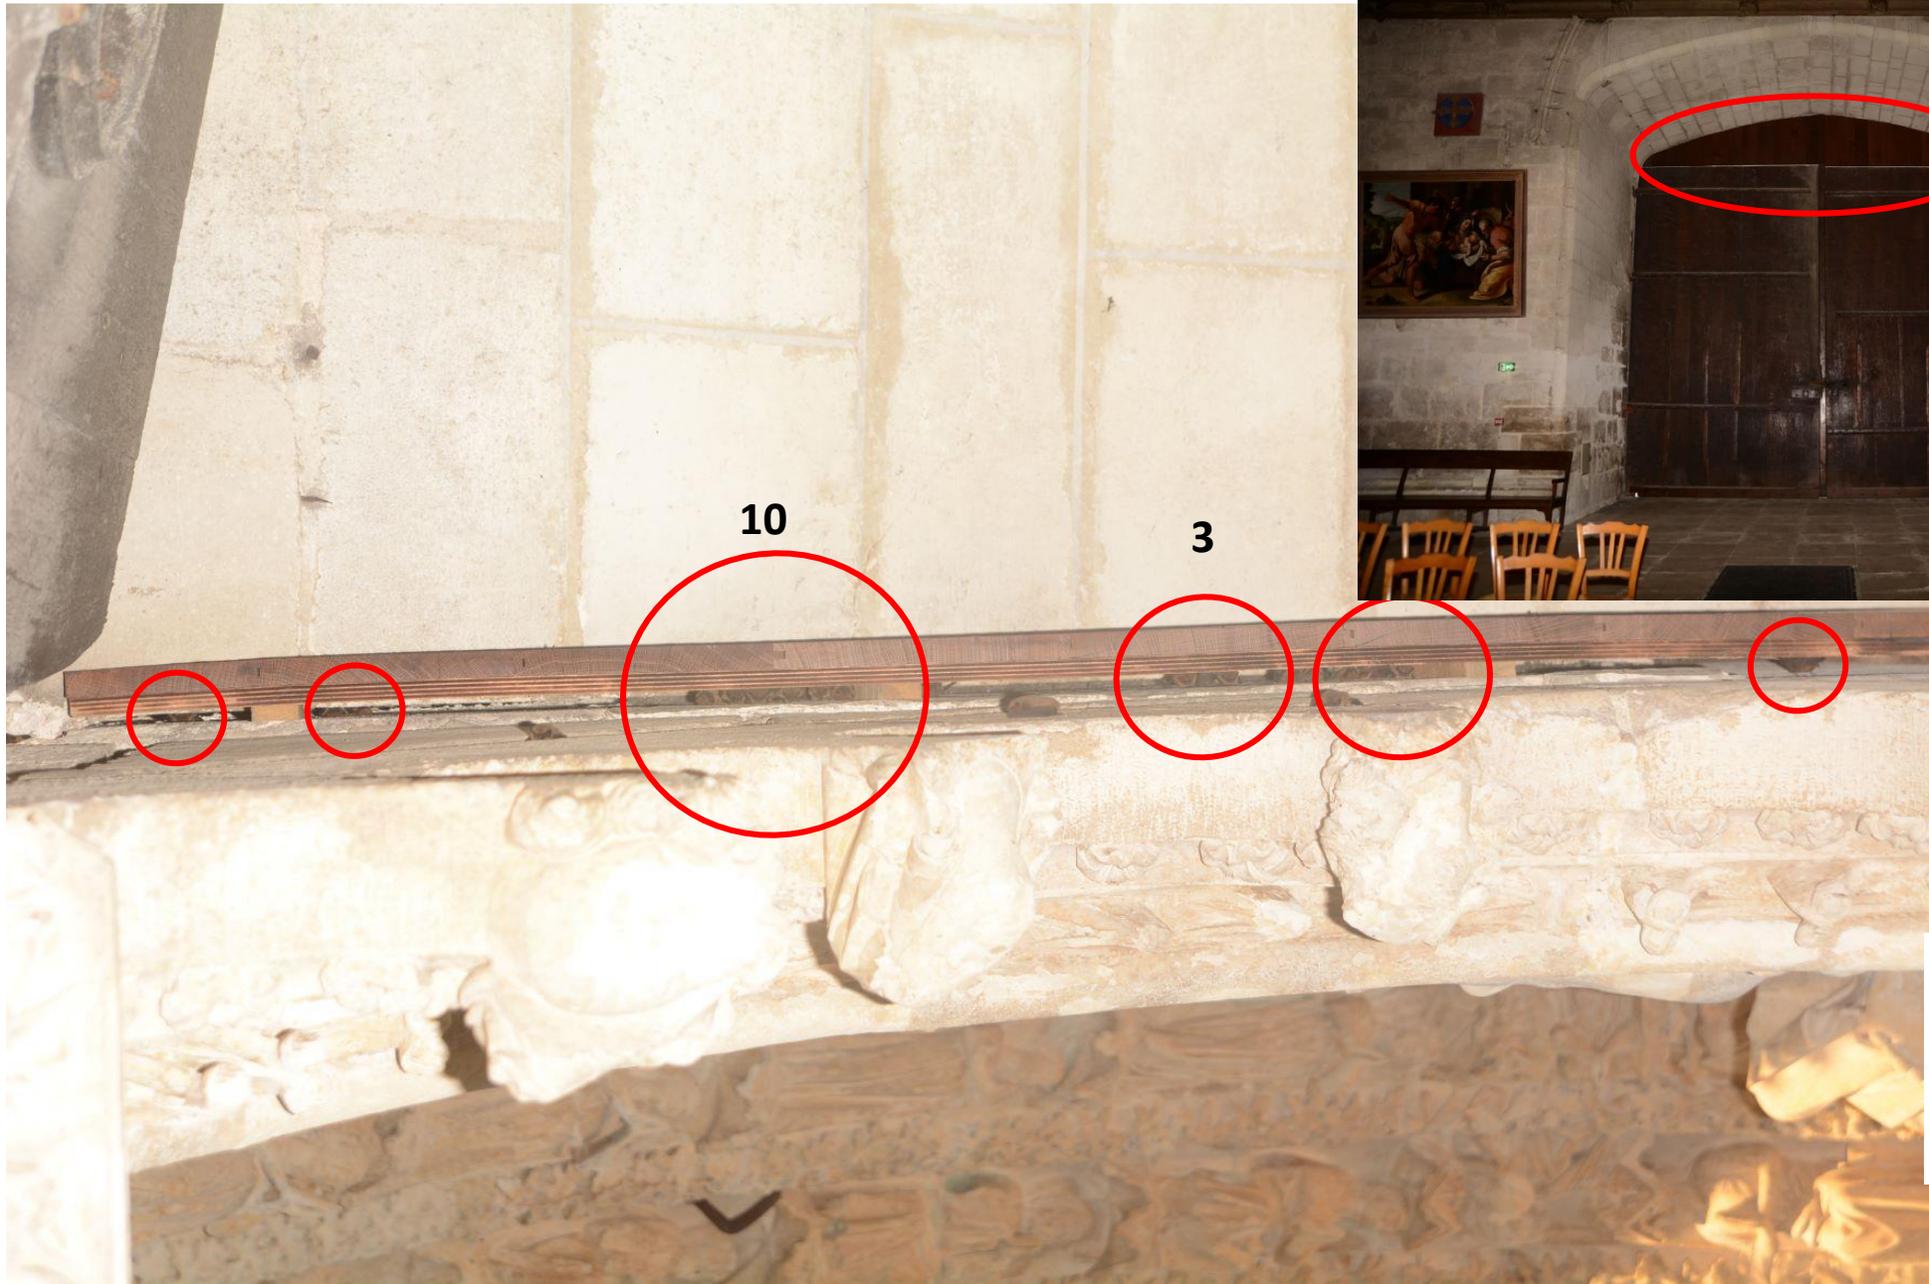

Installer des gîtes

Merci!
